

# Global trends in investment migration and real estate

4.00pm

Our expert commentators will discuss pertinent global trends in the investment migration industry as well as the real estate industry, Covering these topics -

- What are the global trends in residential and commercial real estate?
- How have prime residential markets performed in the last year in world cities? Have we seen a recovery?
- What about prime residential rental markets?
- How has the shift to hybrid working impacted cities, and what does that mean for office markets?
- What are some of the differences between countries/programs in terms of real estate investment qualifying criteria?
- What are high net worth clients looking for in a post-pandemic world?
- What about commercial occupiers – which sectors are driving growth?
- What drives these decisions? What are HNW buyers looking for in the post-pandemic world?
- Which are the residency and citizenship programmes where buying property is a key factor?
- How are these investments performing?
- How does the Best Real Estate Investment Migration Index work and why did H&P do it?
- What are the opportunities in the Caribbean? What are the risks? So much of the real estate story is linked to tourism? Has this suffered badly during Covid era? How will it recover?
