

Indonesian Wealth Management : An Update and a Glimpse into the Future

3.00pm

The Indonesian Wealth Management Market: An Update and A Glimpse into the Future

- How are asset managers and wealth managers evolving to engage the post-pandemic era?
- Has demand for investment products stayed strong? And for what type of themes or strategies? What is the appetite for 'offshore' investment products?
- Are banks still the dominant wealth management players? Or are any new entrants making inroads?
- How are firms accelerating their digital transformation?
- What is happening in the unit linked space in Indonesia?
- How is Syariah wealth and asset management and insurance developing?
- What interest do we see in 'new assets' given lowering interest rates?
