

# Philippines Wealth Management – Evolution of the Market & Key Trends Ahead

3.00pm

Philippines Wealth Management – where does the industry go from here?

- What are the key developments in the Philippines' Wealth Management and Asset Management market?
- What changes (if any) has Covid-19 made with regard to client expectations and behaviour?
- Where will the future business and growth come from, and what are your key priorities?
- Offshore or onshore, or both? Where is the long-term opportunity? And how are the competitors shaping up?
- How can they get the right people and the right proposition in front of the clients?
- What are the main themes and products that resonate with clients today?
- Is enough investment being made in digital technologies and solutions, and in which key areas?
- What digital proposition is on offer to clients across the different segments of wealth, why and how is this developing?
