

The evolution of Indonesian wealth management

3.00pm

Indonesia - Wealth Management Market Update

- What is your vision for wealth management in Indonesia in a Post Covid-19 world?
- How are you improving your platform and proposition?
- In this more challenging environment – how are driving revenue and keeping cost under control?
- What growth potential lies ahead?
- How is the private client base evolving, and how are clients' needs and expectations changing?
- What are the challenges to further growth?
- How are firms accelerating their digital transformation?
