The return of hedge funds

3.00pm	The return of hedge funds

- Given more difficult and challenging markets - what hedge fund strategies will deliver the best performance today?
- Are ‘true alternatives’ now increasingly relevant? And Why?
- Will high inflation and interest rates continue to drive opportunities for alternatives?
- When hedge funds didn’t perform well - like in 2020 – how did it expose those funds with inadequate risk management? And how can investors tell the difference so they can avoid these issues in the future?
- Are hedge funds in increasing favour amongst private clients in Asia, and why or why not?
- What are the downsides of buying hedge funds?
- What sort of percentage of any HNW portfolio would sensibly be allocated to hedge funds?
- Where should private clients in Asia source their advice and expertise to determine which strategies and managers to invest in?
- What is coming next in the world of hedge funds?
