

The Rise of Digital Platforms for Investment and Wealth Management

3.00pm

Webinar

- What are the key trends in the curation and delivery of the investment proposition amongst private banks and other key wealth management competitors in Asia?
- How can the new wealth model align both the human and digital in a seamless collaboration for the delivery of optimised investment products, ideas and advice for private wealth clients?
- What is coming next in the world of digital technologies and services that will further enhance the wealth management offering in the region?
- How do you achieve investment and advisory personalisation and hyper-personalisation at scale?
- How can digital solutions help to elevate the skills, capabilities and productivity of the RMs and advisors who are promoting investment ideas and advice?
- What about the vital role of data management and analytics and the application of AI and Machine Learning in the investment curation process?
- What role does CLM/CRM play in helping to deliver personalisation, relevance, suitability and client loyalty?
- Buy or build? Which is the best approach to continued digital transformation, or it a combination approach best advised?
- What's coming next and are we prepared?
